Title: CargoExpress PH: A Progressive Web-Based Cargo Delivery Booking and Tracking System			
Revision/s: - Forms and Booking – Add auto-fill for returning customers and standardize the name format as Last Name, First Name, Middle Name. - Trip Schedule Validation – Prevent starting a trip if the current date does not match the scheduled departure date. - Package Verification and Proof of Delivery – Add driver verification of package details and implement Barcode/QR Code scanning for Proof of Delivery. - Sales Report Enhancements – Improve the sales report layout and add trip-based search/filtering, with options to Generate and Print reports. - General Report Filters – Add a calendar date-range filter (Start Date to End Date) for generating reports. - Price and Date Management – Add a Toggle Date feature and implement price management per trip.			
	NAME	REVISIONS	SIGNATURE
Adviser:	Ms. Angelica T. Sit		
Panelist/s:	Dr. Benjamin N. Omamalin	- Add a "Toggle Date" feature. - Implement QR Code functionality. - Sales Report: tasks/updates. - Implement Price Management per trip.	
	Dr. Shella C. Olaguir	- Repeat Order: automatic fill-up. - Book Shipment: Last Name, First Name, Middle Name. - Start Trip: Restrict starting a trip if it's not yet the scheduled trip date. - Proof of Delivery: Barcode or QR code. - Reports: Add a calendar date range filter for generating reports. - Sales Reports: Add functionality to Generate and Print.	
	Engr. Catherine Leah G. Gabo	- If repeat customers, auto-fill-up on the forms. - Trap Start Trip Schedule: cannot start trip if not departure date. - Add other verification on the ownership or details of the packaging using new technologies. - Add a search filter based on trips for the sales. - Change the Sales Report
